<ul style="list-style-type: none"> <li>• Martsella is such a sweetheart who always helped students. She also had a solid grasp of the material and was able to answer some of the most technical questions.</li> <li>• The sections were very informative and helpful for solving the problem sets. Martsella clearly has a mastery of the material and teaches effectively. At times, the sections went on for too long and too often simply repeated the material from class instead of offering a more practical summary.</li> <li>• Martsella is one of the best TA's I have had at Columbia. Her recitations were extremely valuable, supplements to lecture. She very ably answers all students' questions and can teach advanced materials in an easily understandable way.</li> <li>• She's awesome! She answers questions really helpfully, and she typically only gives you procedures for homeworks that help you actually solve problems. Very very good</li> </ul>
