- Good TA. Ran through example problems to prepare us for exams.
- good
- Amazing TA! So approachable, helpful, and kind. Really cares about section!
- Leave some time open ended for student questions.
- Martsella is very dedicated. I really appreciate the time she gives to this course, by covering another TA's session once, and also by holding extra review sessions for the midterms and finals. I like that sometimes her recitations go beyond what is covered in the lecture and she doesn't just give us the same questions with just a few tweaked numbers, such that it allows us to apply the concepts learned but not in a mechanical way. She goes a bit fast during the recitation.

2 - What is the overall teaching effectiveness of Martsella Davitaya?
